

# WATER DYNAMIX

## PURIFIED WATER WITH CUSTOMIZABLE MINERAL INJECTION

### PRODUCT DESCRIPTION

Water Dynamix—Series 2 Mineral Injected Water System

Water Dynamix—Control Panel

### PRODUCT INFORMATION

Purified water is a mainstay in households and businesses and is desired by consumers around the globe. Water Dynamix has developed an industry leading product that provides purified water solutions with raw mineral add back features. The technology behind Water Dynamix strips the water of impurities and chemicals, then allows add back of raw minerals. The system is designed to meet the needs and requirements for an array of consumers and businesses; from convenience stores to coffee shops, houses to greenhouses and breweries or any business that requires high quality water.

The Water Dynamix purification system is the only system of its kind, providing purified mineral-enriched water in a controlled environment. The patented system has state of the art technology to treat most water problems and provide a purified, pH balanced product. The user controlled mineral injection can be monitored from your tablet or headquarters. The system enhances quality controls and establishes consistency among all chain stores.

### FEATURES

- Real time inline mixing and control
- Precise injection rates
- Scale up or down injection platform
- Zero downtime with treated bypass system
- 1,440 to 8,640 gallons per day
- 200 gallon storage capacity
- Standard footprint size 48" x 30"
- Automated touch screen controls
- Injection of many mineral combinations

### BENEFITS

- Ease of use and installation
- Brand conformity
- Create your own "trade secret"
- pH balanced water
- Extends the life of equipment
- Improve product quality/consistency

### APPLICATIONS

- Beverage (coffee, brewing, soft drinks)
- Convenience Stores
- Horticulture
- Restaurant
- Residential
- Water purification and pollution control

### SCOPE

- Basic model includes 2 minerals added
- 7 step water purification
  - 5 micron filtration
  - Carbon filtration
  - Hard water treatment
  - Reverse osmosis
  - pH balanced
  - Mineral injection
  - Ultra violet sterilization
- Many custom packages to fit your needs
