

WATER DYNAMIX

WHOLE HOUSE – PURIFIED ALKALINE WATER

PRODUCT DESCRIPTION

Water Dynamix– Series 2 Mineral Injected Water System

Water Dynamix– Control Panel

PRODUCT INFORMATION

Alkaline water is beneficial in maintaining proper pH in your diet and reducing the acidity in your body. Water Dynamix has developed an industry leading whole house water system that provides purified water solutions with raw mineral injection. Water Dynamix technology strips water of impurities, harsh chemicals and hard minerals, then injects raw minerals into the purified water. The system allows the user to formulate the mineral injection rates; from a pH balance to alkaline water to meet your desired preferences and tastes. Take control of your water with the purified alkaline water system.

The Water Dynamix purification system is the only system of its kind, providing purified mineral-enriched water in a controlled environment. The patented system has state-of-the-art technology to treat most water problems and provide a purified, pH balanced product. The user controlled system can be monitored from your tablet. The system is complete with pre-filters, purification system, storage tank and home pressure pump.

FEATURES

- Real time inline mixing and control
- Precise injection rates
- Scale up or down injection platform
- Zero downtime with treated bypass system
- 1,440 to 8,640 gallons per day
- 200 gallon storage capacity
- Standard footprint size 48" x 30"
- Automated touch screen controls
- Injection of many mineral combinations

BENEFITS

- Purified mineral water
- pH neutral to alkaline water
- Customizable mineral injection
- Inject desirable minerals
- Built with industry leading technology
- High quality & easy installation
- Complete water treatment system

APPLICATIONS

- Whole house purified alkaline water
- Water purification and pollution control
- Horticulture and hydroponic
- Multiuse: Household, garden & animal
- Residential or commercial

SCOPE

- Basic model includes 2 minerals added
- 7 step water purification
 - 5 micron filtration
 - Carbon filtration
 - Hard water treatment
 - Reverse osmosis
 - pH balanced
 - Mineral injection
 - Ultra violet sterilization
- Many custom packages to fit your needs
